About IRDCP

International Research and Development Center for Publication (IRDCP) is a non-profit organization for promoting research and development around the world. IRDCP is the bridge between the quality publisher and researchers. It provides the platform to researchers and academicians for publication in the Scopus Indexed Journals, SCI Journals, Web of Science Journals, UGC Approved Journals, NAAS Rated Journals, Google Scholar Indexed Journals and other good quality DOI journals.

IRDCP is also a partner organization for publication in conference proceedings. We organize the International conferences for publication in SCOPUS indexed and other refereed journals as per the requirement of the authors of the manuscripts. The manuscripts submitted to IRDCP should be plagiarism free and well coherent in all sense.

The scope of publication with the IRDCP covers all type of review and research manuscripts including the Exploratory & Explanatory Research, Descriptive & Theoretical Research, Applied Research & Action Research, Cross-Sectional Research, Quantitative & Qualitative Research in the field of engineering & technology, agriculture & environmental, Social science & Humanities, Literature & Education development, Medical & Health Science.

The vision of IRDCP :

IRDCP endeavors to promote global excellence in the field of research & development through diligent applications of advanced technology for the holistic development of society. Also, IRDCP is committed to motivate and persuade the researchers to take up the projects for the continuous development of human society and make this world a better place to live in. The IRDCP has a steadfast commitment be the fulcrum of the ocean of knowledge around which efforts of researchers move about.

About Conference

3rd International Conference on COVID-19 Diagnosis- Challenges & Opportunities (CD-CO- 2021)

During the worldwide lockdown due to COVID 19 pandemic, a lot of important activities have come to a halt. However, when we look at the brighter side, all of us have more time for adding to our knowledge and insights.

With this aim, to keep contributing to learning and motivation International research and development Center for publication is going to organize a two-day International Conference with the title “*3rd International Conference on COVID-19 Diagnosis-Challenges & Opportunities (CD-CO- 2021)*” on Feb 23-24, 2021 through online mode.

We hope, this online mode of the conference in COVID-19 pandemic will be an appreciable step in promoting the research activities and new information between researchers, developers, students, academicians and practitioners working in and around the world by keeping the social distance in view to stop the spread of COVID-19 disease. This conference aims is to present the current researches being carried out in the field of social science and education development around the globe.

Prospective authors from academia as well as industry are invited to submit their abstracts that illustrate original/unpublished works and industrial applications describing advances and significant innovations in the field.

Abstract— In most countries, one of the ways to stop the COVID-19 pandemic was social lockdown, which resulted, in many situations, in the closure of schools at all educational levels. Considering the length of this closure, distance learning was implemented, which tended to be based on synchronous and/or asynchronous teaching activities through specific Internet platforms. These online classes were complemented, in various situations, with classes via television or previously recorded videos. Analyzing the Portuguese situation, this change from face-to-face to distance learning has not only brought about old inequalities but has shaped the emergence of new social, economic and cultural ones, translated, for example, into the literacy divide. It is a challenging context but which may be, at the same time, an opportunity to change the paradigm of school culture shared by both teachers and students, improving its individual and societal significance.

Keywords—COVID-19, SARS-CoV-2 coronavirus, distance learning, schooling, inequalities, school culture.
